

SDS Version	V1.0
SDS Date	03/05/2020

1. Identification of the Material and Supplier	
Product Name	Belgrave Lead Pencils
Other Names	
Product Codes	100851960 and 100851959
Barcodes	9310703840003 and
Recommended Use	Lead pencils
Company Name	Hamelin Brands
ABN	72 000 994 310
Address	17 Interchange Drive, Eastern Creek NSW 2766
Telephone Number	1300 655 667
Supplier Code	
Other Emergency Number	(02) 8867 7520

2. Hazards Identification				
Classification according to ADG Code and The Code of Practice on Preparation of Safety Data Sheets for Hazardous Chemicals under section 274 of the Work Health and Safety Act				
Non Hazardous				
Label Elements				
GHS Label				
Signal Word				
Hazard Statement				
None				
Precautionary Statement				
None				
Other Hazard				
None				

3. Composition / Information on Ingredients

Substance Mixture

Components List

Component	CAS Number	Amount or Percentage	Comment
Polystyrene	9003-53-6	43.48%	
Pigment Yellow 12	6359-85-6	10.43%	
Talc	14807-96-6	34.78%	
Glyceryl monostearate	31566-31-1	6.96%	
Polyethylene	9002-88-4	1.74%	
Calcium Stearate	1592-23-0	1.74%	
SBS	9003-55-8	0.87%	

4. First Aid Measures

For advice contact Poisons Information Centre (Australia Phone 13 11 26) or a doctor

Inhalation	no adverse health effects anticipated from normal use
Skin Contact	no adverse health effects anticipated from normal use. Seek medical advice if irritation occurs.
Eye Contact	no adverse health effects anticipated from normal use. Flush the eye immediately with fresh running water for 15 minutes pulling eyelids away from the eye. If irritation persists seek medical advice.
Ingestion	Ingestion is not an expected route of exposure during normal use of the product. If ingested, call a physician immediately.
Note to First Aid	

5. Fire Fighting Measures

Specific Hazards from combustion products	None
Precautions for firefighters and special protective equipment	This material is toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.
Suitable/Unsuitable extinguishing equipment	Water, Carbon Dioxide, Water spray, Foam

6. Accidental Release Measures

Emergency Procedures	No specific precautions required
Protective Equipment	No specific equipment recommended
Environmental Precautions	No specific precautions required
Methods for Cleanup	For small amounts, dispose of with household refuse. For large quantities, dispose in accordance with Federal, State and local regulations.
Prevention of secondary release	N/A

7. Handling & Storage

Precautions for Safe Handling	No special handling procedures required
Conditions for Safe Storage	Store away from heat

8. Exposure Controls / Personal Protection

National Exposure Standards	N/A				
Biological Limit Values	Chemical Name				
	Value				
Engineering Controls	Not required				
Personal Protective Equipment	None under normal use				

9. Physical and Chemical Properties

Physical State	Colour	Odour	pH	Specific Gravity or Density	Vapour Pressure
Solid	12 Colours	Odourless	Not known	Not known	Not known
Vapour Density	Percent Volatiles	Boiling Point Range	Freezing / Melting Point	Solubility	Flash Point (include method detection)
N/A	N/A	N/A	N/A	Not soluble	Not known
Flammability Limits	Ignition Temperature	Other			
Flammable	Not known				

10. Stability and Reactivity

Reactivity	High temperature and acid solvents
Chemical Stability	Stable under recommended storage conditions
Conditions to avoid	None known
Incompatible materials	No further relevant information available
Hazardous decomposition	Combustion can produce carbon oxides and hydrocarbon oxidation products, including organic acids, aldehydes, alcohols, ketones and acrolein

11. Toxicological Information

Information on toxicological effects	Acute toxicity Based on available data, the classification criteria are not met
LD/LC50 values relevant for classification	Not available
Skin corrosion/irritation Based on available data	the classification criteria are not met
Serious eye damage/irritation Based on available data	the classification criteria are not met
Respiratory or skin sensitization Based on available data	the classification criteria are not met
Aspiration hazard Based on available data	the classification criteria are not met

12. Ecological Information

Ecotoxicity	No further relevant information available.
Persistence and Degradability	No further relevant information available.
Mobility In Soil	No further relevant information available.
Other Adverse Effects	No further relevant information available.
Bioaccumulation Potential	No further relevant information available.

13. Disposal Considerations

Disposal Methods	No information is available for this product. Aquatic toxicity is expected to be low based on insolubility with water. Dispose of this material in accordance with local, state, and federal regulations.
-------------------------	--

	Preferred options for disposal are incineration with energy recovery and landfill. Inadequate incineration may generate toxic gases such as CO,HCN,AN and SM.
Special Precautions for Landfill or Incineration	None known

14. Transport Information					
Regulation	UN Number	Proper Shipping Name	DG Class	Label	Additional Information
ADG	None				
IMDG	None				
IATA	None				

15. Regulatory Information	
Poisons Schedule (Australia only)	
APVMA Status	
TGA Status	
AICS Status	

16. Other Information	
SDS Version Number	BELGRAVEWF.1
SDS Version Date	27/2/2018

17. Key/Legend to Abbreviations and Acronyms used in this SDS	
Abbreviation/Acroynym	Meaning
ADG	Australian Code for the Transport of Dangerous Goods by Road and Rail
AICS	Australian Inventory of Chemical Substances
APVMA	Australian Pesticides and Veterinary Medicines Authority
AQIS	Australia Quarantine and Inspection Service
AS	Australian Standard (as issued by Standards Australia)
ASCC	Australian Safety and Compensation Council
DG ERG Code	Dangerous Goods Emergency Response Guidebook Code. The Emergency Response Guidebook is used by first responders (e.g. Firefighters, police officers and ambulance personal) when responding to transportation emergency involving hazardous materials
IATA	International Air Transport Association
IMDG	International Maritime Dangerous Goods

HAMELIN

Bantex

Quill

LD ₅₀	The median lethal toxicological dose, LD ₅₀ , is an abbreviation for "Lethal Dose, 50%" of a toxic substance. This is the dose required to kill half the members of a tested population
NOHSC	National Occupational Health and Safety Commission

17. Key/Legend to Abbreviations and Acronyms used in this SDS

Abbreviation/Acronym	Meaning
SDS	Safety Data Sheet
STEL	Short Term Exposure Limit - A 15 minute TWA exposure which should not be exceeded at any time during a working day even if the eight hour TWA average is within the TWA exposure standard. Exposures at the STEL should not be longer than 15 minutes and should not be repeated more than four times per day. There should be at least 60 minutes between successive exposures at the STEL
TGA	Therapeutic Goods Administration
TLV	Threshold Limit Value - TLV is a proprietary name registered by the American Conference of Governmental Industrial Hygienists (ACGIH) and refers to airborne concentrations of substances or levels of physical agents to which it is believed that nearly all workers may be repeatedly exposed day after day without adverse effects.
TWA	Time Weighted Average - The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day working week.
UN Number	UN numbers are four-digit numbers that identify hazardous substances, and articles (such as explosives, flammable liquids, toxic substances
